People

Professional Experience

Creative Lead + Graphic Designer

Orderly, Atlanta

April 2018-Present

Created a colorful, bold new brand for this restaurant-helping app while designing eye-catching assets for print and web. Some of my projects included ebooks, one-pagers, slide decks, landing pages, training materials, business cards, and emails.

Graphic Designer

Fabric.com, an Amazon Company, Atlanta

April 2016-April 2018

Channeled my inner girly girl and designed for the site during their transition from a start-up to being owned by Amazon. Along the way, I added photo styling, video editing, and designing custom fabric prints into the mix.

Freelance Graphic Designer

Here, There, and Everywhere

May 2013-Present

Every so often, I take on short-term design projects for small businesses; ranging from vacation brokers to insurance companies and mom and pop shops.
